E25	1.40	.055
D26	1.50	.055

** Equivalent tension. Because this diameter is larger than the fluorocarbon, it might throw off your lever regulation a bit and your lever's regulation might need to be adjusted.

Note: A string may be replaced by one on either side of it. (i.e. The .81 can be substituted by the .77 or .86.)
